Comments and Recommendations

Film Production Branch
(Support Staff)

Comments:

1. This activity was formerly attached to the old Instructional Services Staff for "administrative support". No mention was made in former functions of "direction" or "supervision". It is proposed as a Branch of the Support Staff in order to provide a responsible level of direction.
2. The recommended T/O for this activity is believed to be adequate for current operations. However, if present plans materialize, this staff may need to be increased.

Recommendations: None.
